1. Mr. Michael J. Willardson authorized charge of \$120.00 for **EXTENSION OF ONE MONTH** to Deposit Account number 50-3703, in the telephone interview dated January 10, 2007. (For this account number, see last page of Applicant's Remarks filed Nov. 13, 2006).

2. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in the telephone interview with Mr. Willardson on January 10, 2007. Mr. Willardson agreed to cancel rejected claims 13-18 in order to place the application in condition for allowance.

3. **Please amend the claims as follows:**

**Cancel claims 13-18.**

4. The following is an examiner's statement of reasons for allowance:

As indicated in the Advisory Action dated December 12, 2006, the art rejections of independent claims 1, 6, 22, and 26 and their dependent claims 2-5, 7, 8, 23-25, 27, and 28 were withdrawn. The art rejections of independent claims 9 and 19 and their dependent claims 10, 11, 20, and 21 were also withdrawn. The reasons for the

withdrawal of the rejections are the reasons for allowance of claims 1, 6, 22, 26, 9, and 19 and their dependent claims, which are repeated below.

Claims 1, 6, 22, and 26 and their dependent claims 2-5, 7, 8, 23-25, 27, and 28 are allowable over the prior art of record. Although Natori (U.S. Patent No. 4,908,717) states that a light source of an image scanner, such as a fluorescent lamp, has suffered a disadvantage that the intensity of illumination around both end portions of the fluorescent light tube of the lamp is remarkably reduce, during prolonged use, consequently to make the distribution of light uneven (col. 1, lines 22-27), and discusses various means for and methods of generating a more uniform illumination distribution at the light source output, Natori does not suggest that the means and methods include employing a first light source and a second light source at the end of the light tube as claimed. It is concluded that it would not have been obvious to one of ordinary skill in the art at the time the invention was made to include a first light source and a light source as claimed.

In addition, the examiner agrees with Applicant on that the coating material (phosphor 24) on the light tube of Ichikawa et al. (U.S. Patent No. 6,919,974) is not total reflective material, a material claimed in independent claims 1 and 26. Ichikawa et al. discloses that "A reflective film may be provided between the tube 21 and the phosphor 24" except the angle range  $\alpha$  (col. 4, lines 14-16).

Art Unit: 2625

Claims 9 and 19 and their dependent claims 10, 11, 20, and 21 are allowable over the prior art of record. The examiner agrees with Applicant on that the phosphor coating (24) on the light tube of Ichidawa et al. (U.S. Patent No. 6,919,974) is not a total reflective material, a material claimed in claims 9 and 19, and the fluorescent coating of Beeman (U.S. Patent No. 6,917,452) is not a total reflective material, a material claimed in claims 9 and 19, although Beeman teaches applying the coating such that the density of the coating at the two ends portions of the light tube is higher than that at the center portion as claimed. Ichikawa et al. discloses that "A reflective film may be provided between the tube 21 and the phosphor 24" except the angle range  $\alpha$  (col. 4, lines 14-16).

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

5. Applicant is reminded of the improper claim of foreign priority file with the Combined Declaration and Power of Attorney on October 8, 2002. An "X" is placed under "No" in the foreign priority claim form.

Please refer to M.P.E.P. 201.11, page 200-66, section f, and also Rule 1.78(a) for filing a petition and fee for properly claiming foreign priority (or delayed claiming of foreign priority).
